Under the agreement for 2015
Dallarnil State School will receive

$9,550*

*Estimated on 2014 data. Actual funding will be determined after 2015 enrolment data is finalised.

This funding will be used to

Growing our school improvement by focusing on three key areas: teaching and learning practices, collection and use of data, targeted individual student support/extension. Dallarnil already provides excellent learning for all our students and we help them to achieve high standards.

This year we aim to strengthen that success and further embed it as part of our culture.

All students will be above the National Minimum Standards in Literacy and Numeracy.

Develop an Individual Learning Plan for students who are at risk or below National Minimum Standards.

Increase the percentage of students in Year 3 achieving in the Upper 2 Bands for Writing to 100%.

Increase the percentage of students achieving High or Very High in Years 1, 2 and 3 Mathematics this year.

Our strategy will be to

Undertake weekly review of student achievement data, as per the Dallarnil SS Data Assessment Schedule and develop value added targets for all students.

Design a set of short, medium and long term goals in Literacy and Numeracy and implement specific targeted teaching strategies, through problem solving, obtained from regular assessment, data analysis and class work.

Further implement a whole school approach to the teaching of writing, where daily writing and feedback to students is recommended for improvement and growth.

Our school will improve student outcomes by

- Engaging a specialist teacher to work individually with students through the implementation of targeted Literacy and Numeracy strategies. $6950
- Purchase online standardised Progressive Achievement Tests in Reading, Spelling, Vocabulary, Grammar and Punctuation for use in annual pre and post testing. $600
- Purchase annual use of Mathletics to support individual students, on individual numeracy programs. $1000
- Staff will develop individual plans for targeted student improvement, involving the classroom teacher, special education teacher, support teacher literacy numeracy and teacher aides. $1000
